-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-16, drawn to encoding protocol data units transmitting additional supplementary services carried over an existing protocol (H.323), having therein identifier fields for identifying different functionally based supplementary services which is classified in class 370, subclass 352.

II. Claim 17, drawn to presentation and display of information at an endpoint "relating to a Simple Supplementary Services Protocol (SSSP) and carried via messages over an existing protocol (H.323)" having therein two different displays namely a "Feature Display" displaying supplementary feature information relating to the SSSP and a second display ("a Default display") displaying a non-SSSP related information, classified in class 715, subclass 501.1.

1. The inventions are distinct, each from the other because of the following reasons:

Art Unit: 2144

The use of group I is separately implementable from the invention set forth in Group II, as well the converse. That is, the use of Group I, providing encoding protocol data units transmitting additional supplementary services carried over an existing protocol (H.323), having therein identifier fields for identifying different functionally based supplementary services, is independent from designing of user interface presenting two different sets of information having therein two displays "Feature Display" (displaying supplementary feature information relating to the SSSP) and "default Display" (displaying a non-SSSP related information) of Group II.

### **Conclusion**

2. Because theses inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. Because theses inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in

Art Unit: 2144

compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Yemane Gerezgiher whose telephone number is 703-305-4874 or (571) 272-3927 effective October 27, 2004. The examiner can normally be reached on Monday- Friday from 9:00 AM to 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful. The examiner's supervisor, William Cuchlinski, can be reached at (703) 308-3873 or (571) 272-3925 effective October 27, 2004.
